Certain statements we may make during the course of this discussion which do not relate to historical financial information may be deemed to constitute forward-looking statements. Any forward-looking statements are subject to various factors that could cause actual results to differ materially from our expectations. We have set forth in our most recent Annual Report on Form 10-K for the fiscal year ended March 3, 2013 various factors that could affect future results. Those factors are found in Item 1A and after Item 7 of that Form 10-K. Any forward-looking statements we may make are subject to those factors.

I'd like to briefly review some of the items in our first quarter ended June 2, 2013 P&L, which are not specifically addressed in the earnings release. It is important to note for any discussions during this conference call that the first quarter ended June 2, 2013 and the first quarter of last fiscal year were 13-week periods. The fourth quarter ended March 3, 2013 was a 14-week period.

During the fiscal year 2014 first quarter, North American sales were 48% of total sales, European sales were 9% of total sales and Asian sales were 43% of total sales, compared to 47%, 11% and 42%, respectively, for the first quarter of the prior fiscal year and 49%, 9% and 42%, respectively, for the 2013 fiscal year fourth quarter.

Sales of Park's high performance (non-FR-4) printed circuit materials were 86% of total laminate and prepreg material sales in the first quarter of fiscal year 2014, 81% in the first quarter of the prior fiscal year and 82% in the fourth quarter of fiscal year 2013.

Sales of Park's aerospace materials and parts were \$6.7 million in the first quarter of the 2014 fiscal year compared to \$7.6 million in the first quarter of the prior fiscal year and compared to \$7.0 million in the fourth quarter, a 14-week period, of the 2013 fiscal year.

Investment income, net of interest expense, for the first quarter of the 2014 fiscal year was negative \$103,000 compared to \$198,000 in the first quarter of the prior fiscal year and \$113,000 in the fourth quarter of the 2013 fiscal year.

Copper had a \$106,000 unfavorable impact on pre-tax earnings in the first quarter of fiscal year 2014 compared to the first quarter of the prior fiscal year, but a favorable impact of \$74,000 compared to the fourth quarter of fiscal year 2013.

The effective tax rate before special items was 19.0% in the first quarter of the 2014 fiscal year compared to 19.3% in the first quarter of the prior fiscal year and compared to 15.7% in the fourth quarter of the 2013 fiscal year.

During the first quarter of the 2014 fiscal year, the Company had one customer that was more than 10% of total sales, which was TTM. The four remaining customers rounding out the top five were ISUPETASYS, Sanmina, Shennan Circuits and WUS, in alphabetical order. The top five customers totaled approximately 48% of total sales. Our top 10 customers totaled approximately 64% of total sales and the top 20 customers totaled approximately 75% of total sales.
